PROFESSIONAL SUMMARY

Dynamic and proactive B.Tech CSE student currently pursuing a Bachelor's degree in Computer Science and Engineering. Equipped with a comprehensive understanding of DevOps principles and the software development lifecycle, I am eager to apply my knowledge and skills in a professional setting. Proficient in tackling intricate data structures and algorithms challenges, I showcase a robust command of coding fundamentals. Additionally, I am well-versed in web development technologies, such as HTML, CSS, and JavaScript, and eager to leverage these skills to excel in a vibrant industry setting. Committed to continuous learning and driven by a passion for innovation, I am excited to contribute my expertise to drive impactful solutions in a collaborative environment.

EDUCATION

KL University **Bachelor of Technology in Computer Science and Engineering** | Vijayawada *2022 - 2025*
  – CGPA : **9.67/10.0**

Loyola Polytechnic college (YSSR) **Diploma in Computer Science and Engineering** | Pulivendula *2019 - 2022*
  – Percentage : **96.34/100**

TECHNICAL SKILLS

Languages: Python, C, Java, MySQL, HTML, CSS
Tools and Frameworks: React, Git, Docker, Jenkins, Azure DevOps, AWS
Relevant Coursework: Data Structures and Algorithms, Operating Systems, Object Oriented Programming, Database Management System, Agile (Scrum/Kanban)
Soft Skills: Teamwork, Adaptability, Collaboration, Problem Solving

INTERNSHIPS

AWS Cloud Computing | *AICTE-Eduskills* *Jan - Mar 2023*
  – Attained AICTE certification with expertise in AWS Cloud Computing, demonstrating proficiency in scalable and secure cloud solutions

Salesforces Administrator | *Smart Bridge* *Jan 2024*
  – About the Salesforce administration, CRM management, data migration, automation, reports and dashboards, user support.

Web Development | *TechnoHacks* *March 2024*
  – Designing web pages for business landing pages using React.

CERTIFICATIONS

Azure – 900 | *Azure*
Oracle Cloud Infrastructure | *Oracle*

PROJECTS

Create a CI/CD Pipeline using Azure DevOps | *git,Azure DevOps* *Nov 2023*
  – Implemented end-to-end CI/CD pipeline using Azure DevOps for automated build, test, and deployment of applications, optimizing development workflows and ensuring consistent software delivery. Utilized YAML pipelines, version control integration, and release management to enhance project efficiency.

MK-mart Landing Page | *React,Email Js* *Spring 2022*
  – Created and launched MK-Mart's ReactJS-based website ,Integrated EmailJS for seamless communication, providing easy feedback,Enabled convenient location mapping and direct dialing, ensuring easy access to our store's contact information.

ACHIEVEMENTS

Achieved 158th position out of 5000 participants in the prestigious Coding World Cup powered by Logitech, hosted by Coding Ninjas. Demonstrated strong coding skills and problem-solving abilities in a competitive coding challenge, showcasing dedication and expertise in the field.
